The RateWare© Plus Advantage

RateWare© Plus offers all the benefits currently enjoyed with RateWare© XL and the added access to carrier-published accessorial charges.

- Access to SMC³'s library of 4,000 base rate tariffs
- Instant, complete and accurate quoting and rating
- Improved planning and optimization
- Audit carrier extended service charges
- Price control and audit
- Fewer billing disputes

#	Description
1	Shipper enters order details into the TMS
2	TMS passes shipment details, contract components (i.e. base rate, discount, and absolute minimum charge) and carrier SCAC to RateWare©
3	RateWare© Plus retrieves applicable published accessorial charges from SMC³'s central repository
4	RateWare© returns the net linehaul rate and any applicable accessorial charges
5	TMS adds accessorial exceptions and fuel surcharge to return the complete rate quote

Access Fast, Accurate and Effective Shipment Pricing With High-Quality, Real-Time LTL Data

RateWare© XL is an extremely fast and comprehensive transportation rating engine, delivering exceptional accuracy and up-to-date data and pricing information for less-than-truckload, density and small package rating. It accesses the SMC³ transportation pricing library of more than 4,000 data modules.

RateWare© XL users can access:

- CzarLite® Product Family
- Density Pricing
- Zip Updates
- All Other Carrier Tariffs

How Fast is RateWare XL?

The millions of LTL shipments in the US each week can be rated by RateWare© XL in less than 10 minutes.

About SMC³?

Fueled by heavyweight, analytical APIs, SMC³ delivers its core competency – LTL pricing expertise – through collaborative pricing technology that supports end-to-end, ongoing predictability in shipper/3PL-carrier relationships. Thousands of North American shippers, carriers, logistics service providers and freight-payment companies rely on SMC³'s sophisticated LTL base rates, content, and expert bidding and planning tools to make the best business decisions, achieve higher returns on their transportation investment, and meet the dynamic demands of the market.
